

Rice Fathers Anti-Bolsheviki Measure

Bill in Senate Prescribes Severe Penalties For "Criminal Syndicalism", Defined As Doctrine Advocating Sabotage To Accomplish Ends

(Special to Maui News.)
HONOLULU, April 9—Action toward heading off anything like a Bolshevik movement in the territory was taken in the legislature recently when Senator Harold W. Rice introduced a bill defining criminal syndicalism and prescribing heavy penalties for every phase of it. The bill, which follows along the lines of the law enacted in California recently, is as follows:

"Section 1. Criminal syndicalism is hereby defined to be the doctrine which advocates crime, sabotage, violence or other unlawful methods of terrorism as a means of accomplishing industrial or political ends.

"Sec. 2. Any person who:
"1. By word of mouth or writing advocates or teaches the duty, necessity or propriety of crime, sabotage, violence or other unlawful methods of terrorism as a means of accomplishing industrial or political ends; or

"2. Prints, publishes, edits, issues or knowingly circulates, sells, distributes or publicly displays any book, any form, containing or advocating, advising or teaching the doctrine that industrial or political ends should be brought about by crime, sabotage, violence or other unlawful methods of terrorism; or

"3. Openly, wilfully and deliberately justifies, by word of mouth or writing, the commission or the attempt to commit crime, sabotage, violence or other unlawful methods of terrorism with intent to exemplify, spread or advocate the propriety of the doctrines of criminal syndicalism; or

"4. Organizes or helps to organize, or becomes a member of or voluntarily assembles of persons formed to teach or advocate the doctrines of criminal syndicalism is guilty of a felony and punishable by imprisonment for not more than 10 years or by a fine of not more than \$5000 or both.

"Sec. 3. Whenever two or more persons assemble for the purpose of advocating or teaching the doctrines of criminal syndicalism as defined in this act, such an assemblage is unlawful and every person voluntarily participating therein by his presence, aid or instigation is guilty of a felony and punishable by imprisonment for not more than 10 years or by a fine of not more than \$5000 or both."

Where Big League Teams Are Training For This Season

NEW YORK, March 15—(Associated Press Correspondence)—Major league baseball squads representing fourteen of the sixteen cities composing the National and American circuits, will begin wending the way southward to Spring training camps within the next few days. The aftermath of the world war is apparent even this early in the baseball season in the plans of the various clubs.

For the first time in many years two teams will attempt to condition players on the home field thus saving the heavy expense incidental to long trips to the South or West at a time when railroad fares and hotel charges are considerably above normal. In this regard the experiment of the Philadelphia Americans and the St. Louis Nationals will be watched with more than casual interest by the club owners of other combinations with the idea of adopting the plan should it be demonstrated that satisfactory results can be achieved on the club diamond as well as under the palms and a ninety degree temperature.

Of the fourteen clubs which have not yet reached this conclusion but four will return to the scenes of their 1918 training period. The two Chicago teams revisit last year's camps and the same is true of the Cleveland and Washington combinations. Every other club will try pastures new. The state of Florida leads as host to the training athletes with five squads quartered within the borders of the peninsula province. Georgia is next with three clubs; Texas third with two, while California, North Carolina, Indiana and Louisiana will each be graced by one group of toiling ball players.

The complete list of big training camps for 1919:

Navy Soon To Turn Back Radio System

No Intention Now To Retain Commercial Business After Peace Is Restored Except Ship-To-Shore Work—Plant Not Rebuilt

The Maui News has it on high authority that the inter-island system which was taken over by the U. S. Navy department at the beginning of the war, and which is still being operated by the Navy, will in all probability be turned back to the Mutual Telephone Company within a comparatively short time.

It was the general impression of the officials of the local corporation not so long ago, that the radio part of their business was gone for good, but the outlook has changed materially quite recently.

It is stated that the navy will probably retain control of all ship-to-shore business, but that otherwise commercial wireless plants will not be interfered with further than necessary to safeguard purely naval business.

It is understood that the equipment of the local system is to be returned substantially as it was when the navy took it over, and that plans for a complete reconstruction of the system with latest class of instruments and machinery, which had been practically decided upon, has been abandoned.

Just when the transfer back will occur is uncertain, but it is believed that it will closely follow the signing of the peace treaty.

Germany Will Have To Pay France For Forests Destroyed

WASHINGTON, March 22—(Associated Press)—"Germany will find that France will insist upon Germany's paying in lumber for the casualties of the French forests which were destroyed during the war," declares P. S. Ridsdale, Secretary of the American Forestry Association, who has just returned from a tour of the Allied countries. Mr. Ridsdale went to Europe to investigate forest losses in France, Belgium, Italy and Great Britain, so that the American Forestry Association, might determine how America could help to replace the destroyed forests of Europe, by presenting forest seed to the various governments.

In northern France many of the forests," he says, "have been so badly smashed by shell, shrapnel and rifle fire, or so badly cut for trench timbers, fuel wood and other supplies for the contending armies that they have been virtually destroyed. They can be restored only by replanting. The agricultural land lying between the forests in various sectors of the battle front have been so torn to pieces by shell fire that it is no longer serviceable for agriculture and, like the devastated forests, will have to be planted with forest tree seed so that in years to come the shell holes may be filled by gradual erosion and the humus of the soil restored. Then the replanted forests may be cut down and the land worked over and restored for agricultural use.

"The peace delegates are now having prepared data upon the losses in the French forests, and France means to insist upon a large amount of cutting in the German forests so that she may be provided with lumber for reconstruction purposes as a part of the indemnity which Germany will be required to pay for the damage which has been inflicted.

"Italy, Belgium and Great Britain will make similar requests, for they, too, have suffered forest losses, and they, too, need lumber in large quantities and believe that Germany should supply it to the extent of her ability," Mr. Ridsdale expects that the American Forestry Association, by securing large quantities of forest tree seed next fall, will be able materially to assist America's European Allies in restoring their forests.

City Of Havana Is Threatened With A Most Unique Strike

HAVANA, March 1—(Associated Press Correspondence)—This city is threatened with one of the most unique strikes ever called. Unlike the usual strike, the movement will not be for shorter hours or higher wages. Thousands of persons in every walk of life, who are occupants of rented houses and rooms may "strike" against their being literally "locked out" of their homes by property owners who are charging exorbitant and illegal rents.

Rent in Havana during the last two years has increased about 50 percent, and in some cases is reported to have more than doubled, especially in the poorer quarters.

According to the law a property owner must file with the city authorities a sworn statement of the cost of construction of any buildings owned or erected by him, from which figures not only the taxes to be collected, but the rent which may legally be charged, are fixed. The property owners having greatly increased

rents, but without correspondingly augmented their tax payments, the renting public is loudly protesting and there is being formed an organization which has for its object the calling of a strike by renters to force the reduction of rates to something like normal.

If the strike is really called those taking part will not actually refuse to pay rent whatsoever, but will decline to pay more than the municipal records call for.

URGES GO SLOW ON ANTI-JAPANESE LEGISLATION

(By The Associated Press)
SACRAMENTO, April 10—Secretary Lansing has cabled the California senate that he and President Wilson believe it would be very unfortunate to have any legislation against Japanese land leasing and picture brides introduced or pressed just now, in view of the present situation of international affairs.

CALIFORNIA SENATE RESOLVES AGAINST FREE IMMIGRATION

(By The Associated Press)

VICTORY LIBERTY LOAN ANNOUNCEMENT

The 5th Liberty Loan will be placed on sale within the next two weeks.

"Let's see it through!" is the slogan that will steel the committee and salesmen for the supreme effort of successfully floating this loan.

"Let's see it through!" is the message every man, woman and child should take to their heart at this time when the financial needs of the nation are as great as in the darkest days of war.

"Let's see it through!" is the personal message to you and to me--the reader and the writer of this announcement--to every American and lover of America.

The work of selling these securities is bound to be hard. Some people will be apathetic, now that the war is over. They will find easy excuses to shift the responsibility to others. It is for these people to stop and think!

Hawaii will have it's quota of the loan to take up. The financial and business houses cannot take it all. As in previous campaigns the true, unselfish patriotism of people in all walks of life must be counted on. Now, NOW is the time to show our highest type of loyalty and patriotism.

Hawaii has faith that the after-the-war slackers will be few. That her sons and daughters will be ready to meet the call. That we WILL see it through.

LIBERTY LOAN COMMITTEE

"It takes a higher type of patriotism to serve this Nation today than it required in the delirium of war."

CARTER GLASS,
Secretary of the Treasury
